

# Boundaries of Virginia Landsat Scenes

**Legend**

- ★ Richmond
- Physiographic Province**
- Appalachian Plateaus
- Blue Ridge
- Coastal Plain
- Piedmont
- Valley and Ridge
- Landsat Scenes**
- 

Currently two Landsat satellites are orbiting the earth, Landsat 5 (TM) and Landsat 7 (ETM+). Each Landsat scene covers an area of approximately 185 by 180 kilometers. Scenes overlap one another and are referenced by their Path and Row number. The above 15 scenes are needed to cover the entire state of Virginia.
